The Mayor's editorial

Welcome in our city !

You have just moved to Nay, or you are thinking of doing so, and we are delighted. To make your installation easier, we thought you might find this brochure useful. It contains a certain amount of practical information that will allow you to discover the resources available on our territory. I hope you will find all the information you need.

Nay is a town on a human scale. It has the main public services, shops, many health professionals ...

Nay is also a dynamic city with a very developed network of associations. It is still a bastide, a small town of character, whose history spans many centuries.

Finally, our town, often called "Nay la jolie" is a town where life is good... Where you can find the tranquility and charm of the countryside, but where there is also a sense of celebration, opportunities for meetings and exchanges as well as a real desire for citizen participation, both at the time of actions dedicated to the environment and quality of life and in the communication between the municipality and citizens.

I welcome you to Nay.

I hope that you will appreciate our commune but also, and especially, that you will feel good here.

Sincerely,

Bruno Bourdaa
